Murder Mystery Unsolved

New York, April 7.—The mystery surrounding the death of Walter F. Baker, the wealthy young Boston man, which caused a sensation last October, will probably never be cleared up. Despite the fact that the coroner's jury recently found that the young man was poisoned, it is said that the authorities have practically concluded not to lay the matter before the Bergen County grand jury, which met today. The district attorney's office is of the belief that the evidence at hand would not warrant any arrests in the case and unless the private detectives employed by the relatives of the victim bring to light some new facts on which an arrest could be made it is extremely likely that the world will never know how young Baker came

to his death and the motive for his murder, if a murder was committed.

Baker died October 27 last within an hour after he had been removed to the home of his friends, Mr. and Mrs. Frank, Hurd in Bogota, from the Tenderloin restaurant where he was stricken. He died shortly after midnight and the body was embalmed before daylight. The chemical and microscopic examination of the viscera and internal organs disclosed the presence of large quantities of arsenic in the body. The poison was said to have been found in organs which the embalming fluid could not by any possibility have penetrated. Baker left a fortune estimated at about \$600,000.

CONFER AT ROME.

Marriage of Duke and Miss Elkins Thought Arranged.

Rome, April 7.—Duke Aosta arrived here and breakfasted with King Victor Emmanuel, Duke of the Abruzzi and the Count of Turin, after which a family conference was held relative to arranging the marriage engagement between Duke of the Abruzzi and Miss Katherine Elkins, daughter of Senator Elkins of West Virginia.

Although nothing official is known, it is reported the engagement has been

DUKE OF THE ABRUZZI.

confirmed and that is the intention of Duke of the Abruzzi to return to the United States shortly. It is also asserted the engagement will not be officially announced, such announcement affecting members of the royal family being unusual.

ELEVATED CAR JUMPS TRACK.

Eight People Seriously Hurt and Some May Not Recover.

Chicago, April 7.—Eight persons were seriously injured, some probably fatally and two score others more or less seriously hurt Tuesday, when a motor car of a southbound train on the South Side Elevated railroad jumped the track near the Indiana avenue station and crashed to the ground. The front car fell into the rear yard of a residence on Prairie avenue, but the rear end remained propped against the structure. The car was used as a smoker.

Motorman George Stang was cut and bruised about the head and body and skull fractured. He was also internally injured. He was taken to Wesley hospital, where it is said he might die.

Among those most seriously hurt were Joseph Darmody of Marion, O.; internal injuries, head cut and leg broken; may die.

E. O. Smith, conductor motor car; skull fractured, may die.

T. M. Mosser, skull fractured; may die.

Barney Homan, internal injuries; James O'Hare, internal injuries; E. C. Quinn, leg broken, internal injuries; condition serious.

About fifty people were in front car when the accident happened and all of them were more or less injured.

BANK SAFE DYNAMITED.

Building Badly Wrecked and Considerable Booty Secured.

Topeka, Kan., April 7.—Robbers early Tuesday dynamited the safe of the State bank at Huron, Atchison county, and escaped with \$6,500. The bank building was badly wrecked.

Found Dead Near Railroad.

Austin, April 7.—J. B. Okane, supposedly of Pine Bluff, Ark., was found dead near the railroad track two miles from Waters station, this county. He is supposed to have been killed by a train. In his pocket was found a card of the Electrical Worker's union of Dayton, O., dated 1903. There was an endorsement by the Pine Bluff, Ark., union, showing him to be in good standing.

Prominent Packer Is Dead.

Chicago, April 7.—J. D. Stubbs, thirty-six years old, son of J. C. Stubbs, traffic director of the Harriman lines, died at the family residence. Mr. Stubbs was in the packing business, handling California products.

SWARM WITH MILITARY.

Great Uneasiness Prevails In the Government Circles.

Lisbon, April 7.—Excitement caused by the election rioting in this city Sunday evening, in which seven persons were killed and 100 wounded, has by no means subsided. There is considerable consternation in governmental circles, and the most extreme precautions are being continued. The streets of Lisbon swarm with troops. Regiments of infantry and batteries of artillery hold Gamoos square and Pedro square. The streets are patrolled by cavalry and mounted lancers massed at street corners.

Two battalions of infantry and two companies of light cavalry were hurriedly ordered into Lisbon Tuesday morning to reinforce the local garrison. The city was in more or less a state of terror all Monday night. Bands of men roamed through the lower quarters and there was considerable plundering in the early morning hours of Tuesday. Troops were on the trail of the marauders and succeeded in dispersing them and driving them into hiding.

DAVIS' PICTURE REMOVED.

Oil Painting of Former Governor and Present Senator Taken Down.

Little Rock, April 7.—Acting Governor Pindall had the oil painting of ex-governor, now senator Jeff Davis removed from the place of honor over the mantel in his private office in the state house and had put in its place a picture of Arkansas' war governor, Henry M. Rector. Governor Pindall explained his action by saying that Governor Rector was fully as great a man as Governor Davis is, and then, with the same bland smile he has worn since the Davis defeat in the recent primaries, softly murmured something about the senator being "politically dead in Arkansas."

Governor Pindall fought Senator Davis during the gubernatorial campaign.

McCreery May Die.

Washington, April 7.—Physicians attending Thomas McCreery, accidentally shot while Congressman Heflin was fighting with a negro, say his chances to recover are one to ten. Tetanus or lockjaw has developed.

Bryan to Speak Easter.

Utica, N. Y., April 7.—Hon. W. J. Bryan will address a meeting of the Young Men's Christian association here on Easter Sunday.

SEVEN MEN INJURED.

Blast Threw Rock in Dynamite and Explosion Was Result.

Huntington, W. Va., April 7.—Seven men were seriously injured in a dynamite explosion at Meadow Creek, where a force of men were at work removing a landslide that covered the Chesapeake and Ohio track. A blast threw a rock into a box of dynamite, overturning the explosive into the fire, an explosion following. C. W. Kincaid, foreman of the work, was most seriously injured. Others injured are J. W. McAllister, Adolph Antony, C. H. Brazie, Antonio Donali, Francisco and Ed. Carter.

WOMEN DESTROY WHISKY.

After Pouring It Out They Reimbursed the Owner.

Lexington, Tenn., April 7.—Members of the local Woman's Christian Temperance union destroyed about forty gallons of whisky belonging to a saloon man who recently moved to this place from Jackson, which city went dry on April 1. The whiskey has been stored in a freight car. The ladies reimbursed the owner.

FAKE WRESTLING MATCH.

Citizens of Cleveland Lose Ten Thousand Dollars on Bet.

South Bend, Ind., April 7.—W. J. Springborn, president of the public service board of Cleveland, who came to South Bend to close a deal for a game preserve and clubhouse in Florida, was made the victim of a gang of sharpers and lost \$10,000 betting on a fake wrestling match. Two men were jailed.

The City National Bank

Believes firmly that All National Banks should be required to Publish their list of Stockholders for the guidance and advice of Depositors.

A national Bank with a responsible list of Shareholders—all home people—all well known—all identified with the best interests of the Town and County in which the Bank is located should naturally receive preference over a National Bank with shareholders scattered all over the State, many of them with no interest in the town or county, save to draw their dividends and take the money from your midst.

Our list of Shareholders have been published from time to time and every Dollar of our Earnings has been kept at Home and today is being loaned to our Farmers and Merchants.

We would be glad of an opportunity to do business with You, come talk it over with us.

The Daily Eagle

Entered at the Postoffice in Bryan, Texas, as second class matter.

BY CARNES & WALLACE

BRYAN, TEXAS, APRIL 8, 1908.

ANNOUNCEMENTS.

The Eagle is authorized to announce the following candidates for the offices indicated subject to the Democratic Primaries July 25, 1908:

For Congress Sixth District:
RUFUS HARDY (Re-election).

For Sheriff,
J. D. CONLEE.
GEO. R. WICKER.

Harriman says his railroad system is not a trust. If this be so the trust is a myth.

If you ask with whom as prime minister King Edward will hereafter run the British government, the reply is, Asquith.

The employers' liability bill passed by the house with only one dissenting vote. It is feared that it will be smothered in the senate.

There are more scandals among the New York 400 than among any other set of people on earth, according to number, who pretend to be respectable.

Strawberries are in their prime and dewberries are beginning to ripen. Plums, peaches, apricots, cantaloupes, watermelons and other things are not far ahead.

Down with the mistletoe! Kissing the girls under the chandelier isn't what is used to be fifty years ago. Hurrah for Burleson and down with the mistletoe!

At the moment of serving the dinner at the Bryan banquet in Denver, the waiters struck. But the Great Commoner proved that he could make a great speech at a dinnerless dinner.

Here is a tip to ambitious young statesmen. In Norway when husband and wife travel together the wife pays only half fare. Fortune and fame await the legislator who introduces the Norway idea into Texas.

The city election yesterday proved the truth of what the Eagle said several weeks ago that there were plenty of good men willing to serve as mayor and aldermen. Bryan can always furnish the men to match the occasion.

Commenting on a paragraph quoted from the Eagle, the Galveston News says: "Bryan has successfully withstood floods, boll weevils and political disappointments, and, like its Nebraska namesake, is now greater, more noteworthy and unafraid than ever before. As long as cotton and alfalfa grow and the Brazos winds its way to the sea, Bryan will be there and grow better."

INSPECTED BUILDINGS

Schools Regarded as Entirely Safe—Recommendations for Opera House Improvements.

Aldermen Saunders and Batts representing the city council and Firemen C. E. Jenkins and J. W. Hamilton, representing the fire company, visited the public school buildings yesterday, and made a thorough inspection with reference to safety in the event of fire. The Eagle learns they regard all the school buildings as entirely safe. At the West Side school they had an impromptu fire drill and in fifty seconds all the pupils were out of the house and on the ground.

At the opera house careful consideration was given for the need of more exits, and the Eagle understands a recommendation will be made that steel galleries raised in shall be extended along the east and west sides of the opera house, with steps leading to the ground, allowing the use of all windows on both sides for exits in case of emergency. This plan is in line with the suggestion of the Eagle in agitating the matter after the great Boyertown, Penn., holocaust. No time should be lost in putting some such plan into operation.

The plan also provides for desirable changes upstairs in the entrance, making egress less difficult.

John W. Gates says he is going to make Port Arthur the finest harbor on the Gulf coast. Colonel Ropes once made a similar remark about Corpus Christi. There is this difference, however; Gates has money of his own to spend while Ropes spent other people's money.

Mighty small things sometimes kill people. The other day a New York society woman laughed herself to death at a funny story. Anacreon, the Greek lyric poet, laughed himself to death upon seeing a donkey eating raisins. But it is better to die of laughter than of tears.

All the satisfaction on the tariff question that the people can get is the promise of a few of the Republican leaders that they are thinking about taking into consideration some sort of a plan of preparing to make inquiry whether or not at some indefinite time in the remote future a slight modification of some of the tariff schedules will be desirable.

If Fred Haskin tells the truth about the Japanese secret service, it is the most extensive and perfect ever known. Its head is in Tokio and its tentacles reach around and all over the earth. It may be that the government at Tokio knows more about the Philippines, Hawaii and the Pacific coast than the government at Washington knows.

The latest things in feminine hats are patterned after the headgear of men and walking canes are to take the place of parasols. Of course, the derby, plug or slouch must be poked under the bench or held in the lap at church—unless the wearer be bald-headed. The reign of the "Merry Widow" was brief but brilliant.

Martin & Lock have an ad in the Eagle to which attention is invited.

TO DEVELOP LIGNITE FIELD.

Mr. O. J. Moseley has Secured Mineral Lease on Property of Mr. Walter Higgs Near Bryan.

A mineral lease was filed for record in the county clerk's office yesterday covering land near Bryan belonging to Mr. Walter Higgs and designed to control the development of the lignite in that locality. Stratas of lignite said to run from 7 to 15 feet thick have been disclosed by prospecting. Mr. Moseley having been at work on the project for some time, and expects from other points regard the results favorably. If the field warrants the outlay a vast industry, such has contributed much to Rockdale, will be developed there. The lease has a ten year tenure and provides that work must begin on or before January 1. The Eagle has previously mentioned prospecting which has been going on in the vicinity of Wellborn, and believes it is but a question of time until the lignite fields of Brazos county will be productive.

BIRTHDAY TEA.

Mrs. John M. Lawrence will give a tea at her home Friday afternoon, from 4 to 7 in honor of Grandma Lawrence's birthday. This venerable lady will celebrate her 89th birthday on that occasion, and will be pleased to greet her many friends. Free-will offering, benefit Methodist church.

Mr. and Mrs. T. C. Nunn, Mr. and Mrs. C. G. Walker, Mr. and Mrs. J. B. Priddy and Mr. and Mrs. E. J. Jenkins, Rev. Mother Evangelist, Provincial of Dallas, is a visitor at Villa Maria Academy.

Mr. and Mrs. L. R. Alexander of Marlin are guests of Mr. and Mrs. Jno. B. Mike.

LIABLE TO PENALTY.

Waters-Pierce Company Owing Gross Receipts Tax.

Austin, April 7.—It was disclosed Tuesday that the Waters-Pierce Oil company has not paid its gross receipts tax for the quarter ending Dec. 31, 1907, nor filed its report in the comptroller's department in accordance with the act of the Thirtieth legislature. This makes the company liable to 10 per cent penalty on account of tax, which is \$10,230. The company is also subject to a fine of not exceeding \$1,000 for failure to make report. The name of this company has been certified to the attorney general for legal proceedings to enforce the collection of this tax. This company now also owes tax on gross receipts for quarter beginning April 1, 1908. Failure on part of the company to pay the tax may lead to another suit against it.

The railroad commission has made public its docket of hearings for April, which begin on the 14th. There are quite a number of minor cases. Among matters to be considered are proposed increased passenger depot facilities by the Katy railway at Dallas, also petition of Texas Baseball league for rate of 1-2 cents per mile, and proposed reduction in merchandise rates by express companies.

Demands Rejected.

Kansas, City, April 7.—Prospects of an early settlement of the strike of 35,000 coal miners were put off Tuesday when operators made certain demands which the miners immediately rejected.

Covey 179; Eugene Edge 170; Frank Clarke 1; W. R. Sanders 3; J. T. Maloney 1; W. S. Wilson Jr. 1; O. E. Saunders 1. Total vote 315.

THE REVIVAL.

The congregation Monday night was large and all the circumstances indicated that the interest is increasing. The subject of Dr. Compton's sermon was Faith. After reading a section from the 12th chapter of John including the text: "Nevertheless among the chief rulers also many believed on him; but because of the Pharisees they did not confess him, lest they should be put out of the synagogue," he quoted from James "Faith without works is dead," and: "The devils also believe and tremble." and from I John 5:4 "And this is the victory that overcometh the world, even our faith. He spoke in turn of the different degrees of faith, showing that only that which is described in the last passage of the text is the kind that saves. At the close of the service several persons arose for prayer.

At 9:30 yesterday morning there was a very interesting and profitable service at the Texas Woman's College, during which five of the students made public profession of their faith in Jesus.

At the morning service in the church, Dr. Compton's theme was unreserved submission to prayer.

The reasons for such submission are threefold: 1st, God's will is perfect, while man's is imperfect; 2nd, man's will is changeable, while God's is immutable; 3rd, man reaches the apex of christian experience when his will runs parallel with the will of God. As an illustration of the last point he held his left arm straight before him, to represent the will of God. Then with the index finger of the other hand he traced a line alongside of the outstretched arm to represent the will of him whose prayer is always answered. On the other hand the unheard prayer in attempting to cross the line of God's will falls into the waste basket. At the close of the service about fifteen arose for prayer.

There are already quite a number of converts ready for baptism and it is expected that the doors of the church will be opened tonight.

BUSTER BROWN AND TIGE.

The store of Eugene Edge was the center of attraction yesterday by reason of the visit of real live Buster Brown and Tige, advertising the Brown Shoe Co. of St. Louis. Buster is represented by Mr. Kay, a gentleman of middle age and diminutive stature, who is very bright and genial and seems to be exceedingly fond of children—almost as much so as he is of his inseparable companion "Tige," a French bull dog. Buster and Tige drove about town and to the schools yesterday morning. Tige with spectacles on and pipe in mouth. Yesterday afternoon an open air performance was given at Mr. Edge's store, and witnessed by a very large crowd. Mr. Kay, who represents Buster, is from Missouri, and is a 32 degree Mason and Shriner, which means he has been "shown."

PUBLIC AND THE NAVY.

Rear Admiral Thomas Thinks
Citizens Should Know

ABOUT VESSELS OF WAR.

Says There Are Technical Matters of
Such Character as to Necessitate the
Utmost Secrecy, but Country Is Not
Interested in Them.

San Diego, Cal., April 7.—Informa-
tion from Magdalena bay is that Rear
Admiral Thomas, temporarily in com-
mand of the Atlantic fleet since the
departure of Admiral Evans, is busily
engaged in getting the multitudinous
affairs of the fleet in hand.

"I shall not remove permanently to
the Connecticut," said Admiral Thom-
as. "I will take with me only what I
require for a few weeks, maintaining
my quarters on the Minnesota in case
I should wish to come back to them.

"It is Admiral Evans' intention to
rejoin the fleet as soon as he is able
to do so."

Admiral Thomas made a rather un-
usual pronouncement regarding pub-
licity affecting the fleet. "It has al-
ways been my belief," he said, "that
the public is entitled to know every-
thing concerning the navy that is con-
sistent with its welfare. There are, of
course, many matters of a technical
nature which must be kept secret
from foreign powers, but these are
usually of a kind in which the country
will not be interested particularly, any-
way."

"It is the people's navy. This is
the people's fleet. There is no reason
why we should conceal from them
what we are doing so long as essential
naval secrets are kept intact. I think
it would be better for people of the
United States and better for the navy
if they knew each other more inti-
mately. I shall welcome any effort
to acquaint the public more thorough-
ly with this fleet."

PERSISTENCY WINS.

It Is Reported No Further Objections
Will Be Made to Marriage.

New York, April 7.—It is reported
an agreement has been reached among
the relatives of Mme. Gould to inter-
pose no further objections to here en-
gagement to Prince de Sagan. The
pertinacity of the prince and insist-
ance of Mme. Gould upon her right to
decide for herself are said to have
broken down the opposition to the en-
gagement, so all except George Gould
has consented to it. The latter is the
custodian of his sister's property.

DESPERADOES ESCAPE.

Break Jail and Country Scoured by

tional federation. Mr. Davis will short-
ly sail for Europe.

senger on the See Line arriving here
from the international border reports

returning to the United States from
Winnipeg.

Ten Counties Go Dry.

weeks ago, dropped dead at a boarding
house while eating supper. He claimed
to be a native of New York City,

owner, both in the city and county.
